

Department of Computer Science
Bachelors' of Science in Computer Science
CSC3114 Cryptology and Coding Theory
Assignment 1, Module 1

Deadline: 31st August 2025 11:59PM

Academic Year: 2025/2026 Semester I

This assignment is to be done in your groups of 3 to 4 persons.

1. Create Python programs that encrypt and decrypt a given text using the ciphers below. A user should be prompted for input i.e. the text to encrypt/decrypt and the key (or number of shifts to make).
 - (a) the Caesar cipher.
 - (b) the Reverse cipher.
 - (c) the Vernam cipher.
2. Research about the following and write a report of your findings (at most 5 pages). Do not forget to cite your sources.
 - (a) the history and the uses of cryptography in the modern world.
 - (b) the history and the uses of coding theory in today's world.
